We didn't haven't had one there since I have been here (7/11). I'm copying Janetta Coats, TAG Coordinator, to verify.

I also sent your other email to Donn, Janetta, and Jason to see if they charged the 2010 travel (looks like 2010 is the question-I didn't see anything highlighted in the document I received). The SEE employees charge their travel to the NOWCC grant. That grant is completely separate from EPA's budget/charging system.

Joy:

Do we or have we ever had a Technical Assistance Grant for Falcon Refinery?

Thanks

Gary Moore
